2018**

NOTICE TO MARINERS

REVISED PORT SAFETY AND ENVIRONMENTAL NOTICE FOR MASTERS

Mariners and Port-Users are advised that the information note for 'Port Safety and Environmental Notice for Master' using Lowestoft Harbour has been revised and is attached to this notice. This revision precedes all previous revisions.

The new revision mainly effects the below areas;

Firstly, 'Section 10: Lifting operations' has been added in this revision to provide a reference on how to gain authorisation for the use of mobile cranes on the port estate/quayside areas.

Secondly, 'Section 13 Personal Protective Equipment (PPE)' has been updated as the port is enhancing its requirement for PPE to be worn when walking within the Port Estate to join / leave a vessel. This includes, Town Quay, Talismans Quay, Silo Quay, All North Quays and Shell Quay. All crew/personnel must wear the minimum PPE requirement of safety helmet and high visibility vest. There will also be a yellow plastic waterproof box at the gated entrance to North Quay and Town Quay (see attached diagram) to deposit the PPE when leaving the port estate, or to collect the PPE when entering the port estate. Boxes will be labelled "SHIPS CREW PPE".

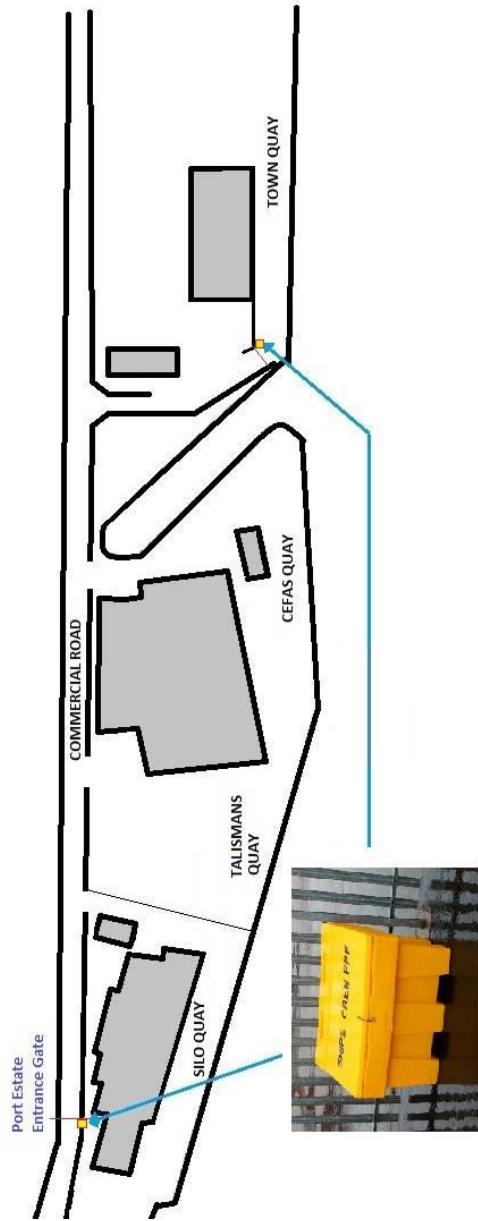

Thirdly, 'Section -14 Fresh water' has been added to inform vessels of the recently implemented changes for the supply of fresh water.

Please bring this notice and the revision of the information to the attention of all Mariners and Port-Users operating in this area.
